

Emmanuel Adesegun

emmanueladesegun2@gmail.com | Ilorin, Kwara

Summary

I'm Emmanuel Adesegun, I am expertise in programming language like PHP Laravel , Ajax, JQuery and React Native. I have developed a deep understanding of web development and have been able to create complex applications that are both efficient and user-friendly. I have enjoyed working with these technologies and am always looking to improve my skills and learn new things to stay ahead of the curve.

Experience

Remote: Fiveteq | Turkey , Instabul

Mobile & Web Developer | 02/2021 - 02/2023

My responsibilities as a Mobile and Backend Developer at Fiveteq included designing and developing high-quality software applications for clients, working closely with other team members to ensure smooth integration between different parts of the system, and providing technical support to clients.

During my time at Fiveteq, I accomplished several important tasks, including developing and deploying a new mobile app for a major client, optimizing the performance of several backend systems to improve speed and reliability, and implementing new security measures to protect against cyber attacks. I also played a key role in identifying and resolving technical issues as they arose, and collaborated with other team members to continuously improve our development processes and best practices. Overall, it was a challenging and rewarding experience that helped me grow as a developer and contribute to the success of the company.
